

Garrett Dodd

University of North Alabama '25
Bachelor's in Computer Science
Minor in Cyber Security

4.0 GPA

Clubs

ACM

I am a member of both the national ACM and my university's local chapter.

ICM

I am a member of my university's chapter of ICM.

Programming Experience

C++ is the language I am currently learning in college; I have completed one semester class using C++ and am proficient in using data structures to analyze files.

Javascript: I learned Javascript last year during AP Computer Science Principles and am proficient in developing algorithms and sorting and analyzing data.

Python: I am currently teaching myself python and can do more advanced data structures and algorithms.

HTML/CSS: I am proficient in both HTML 5 and CSS and am also currently teaching myself both and am able to create interactive websites using javascript.

Certifications:

I have a coursera certificate from the University of Michigan in python programming

I also have a certificate from codecademy.com in C++ programming

Projects completed:

I have made python and C++ scripts that are able to analyze data and return a cleaned and sorted file.

I have made a website able to move between pages in the website using HTML anchor tags.

I am currently making a clock from scratch using a C compiler that writes to the motherboard, and also assembling a motherboard, transistors, and a display.
